Model: **CP201- SERIES**
Fixture Family: **FIFTH AVENUE**
Document Description: Installation Instructions for
4-CABLE SUPPORTED FIXTURES

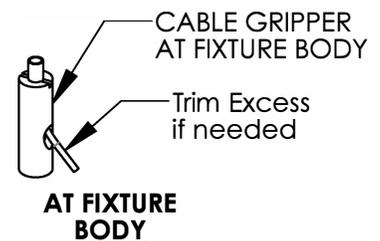

INSTALLING FIXTURE TO JUNCTION BOX

Preparation

Check all instructions with the fixture as some preparation may be necessary before the following steps.
Installation is intended for a flat horizontal ceiling.
SEE SHEET 2 FOR JUNCTION BOX PREPARATION

Instructions

- 1) Loosen Canopy Screws (do not remove) so canopy can drop from mounting plate.
- 2) Fasten mounting plate to junction box with 1/4-20 screws provided with heavy duty mounting bracket.
- 3) Make all wire connections per local and national codes.
- 4) Adjust cables at fixture body so power cord is not being strained and fixture is level.
- 5) Trim excess cable if needed.
- 6) Lift canopy in place and secure with screws provided.
- 7) Test

When using electrical equipment, basic safety precautions should always be followed, including the following:

- Read all instructions carefully before installing and save for future use.
- Make sure all connections are in accordance with the National Electrical Code and local regulations.
- To avoid possible electric shock, be sure the power supply is turned off before servicing or installing the fixture.
- Service should be performed by qualified personnel.
- These instructions may not cover all details or variations. If additional information is needed, please contact Visa Lighting.
