Sheet: 1 of 3

Eng: CLD

Date Drawn: 06/09/15

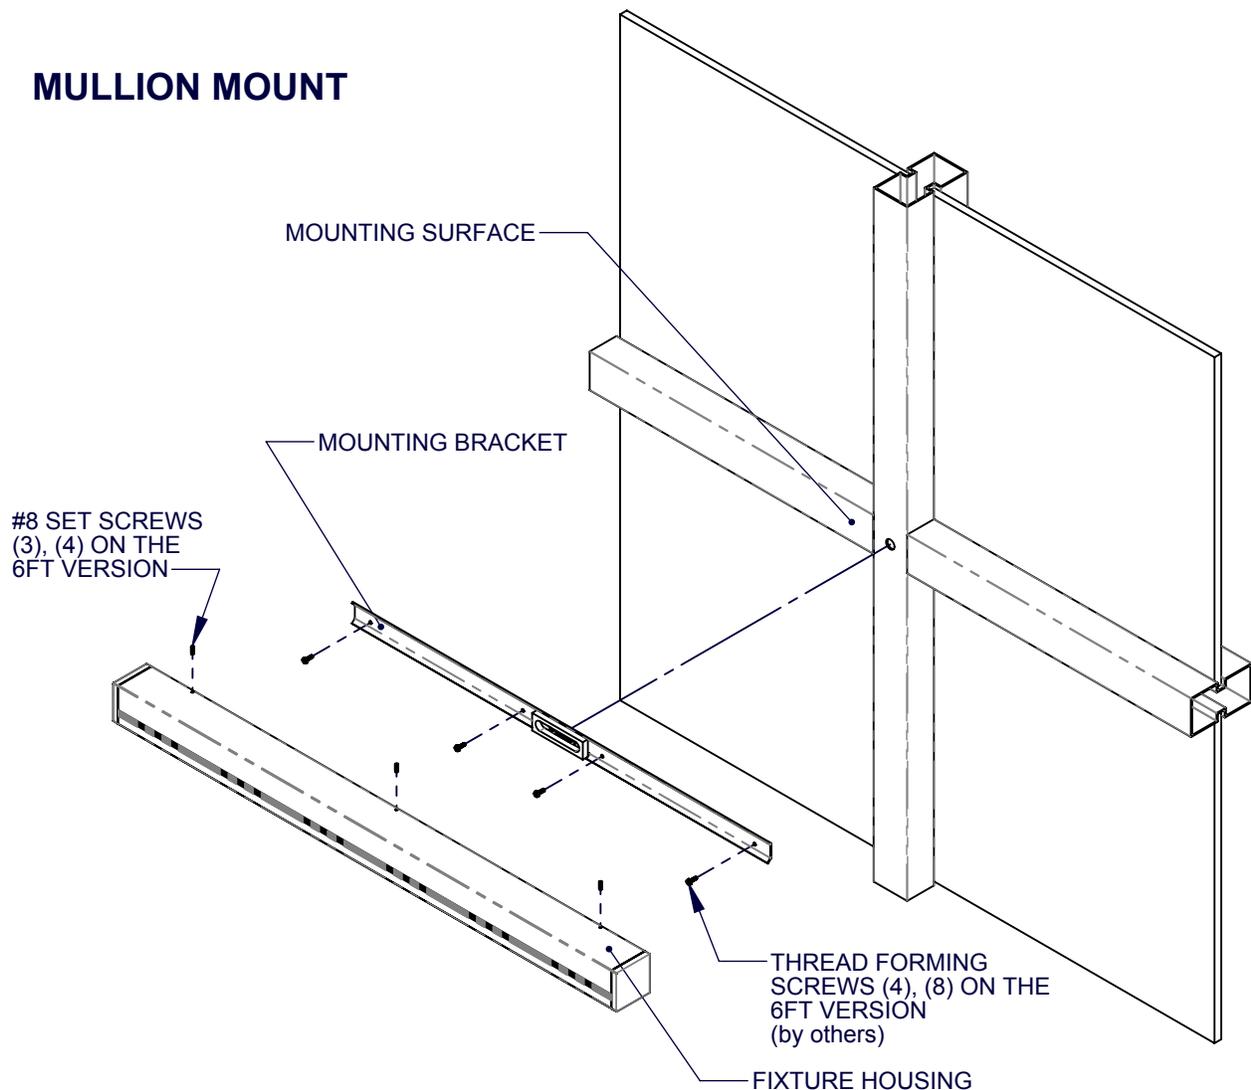

When using electrical equipment, basic safety precautions should always be followed, including the following:

- Read all instructions carefully before installing and save for future use.
- Make sure all connections are in accordance with the National Electrical Code and local regulations.
- To avoid possible electric shock, be sure the power supply is turned off before servicing or installing the fixture.
- Service should be performed by qualified personnel.
- These instructions may not cover all details or variations. If additional information is needed, please contact Visa Lighting.

INSTALLATION INSTRUCTIONS

Passage Series Luminaires

MULLION MOUNT

1. Loosen #8 set screws (3), (4) on the 6ft version.
2. Remove fixture housing from mounting bracket.
3. Mount fixture mounting bracket to aluminum mounting surface with thread forming screws (4), (8) on the 6ft version (by others).
4. Make all electrical connections per code.
5. Be careful not to pinch wires and re-secure fixture to mounting bracket on wall.
6. Tighten #8 set screws.

For proper wet seal, provide a continuous bead of caulk or silicone at mounting plate when mounting surface is not smooth or extended aluminum mullion seams run behind mounting plate.

When using electrical equipment, basic safety precautions should always be followed, including the following:

- Read all instructions carefully before installing and save for future use.
- Make sure all connections are in accordance with the National Electrical Code and local regulations.
- To avoid possible electric shock, be sure the power supply is turned off before servicing or installing the fixture.
- Service should be performed by qualified personnel.
- These instructions may not cover all details or variations. If additional information is needed, please contact Visa Lighting.
